F. Algar, Clement's Lane, London.
G. Street, London.

To the Electors of the Town of Esquimalt.

GENTLEMEN—A vacancy having occurred in the representation of your Town by the retirement of Captain Gordon, I therefore beg to offer myself as a candidate for the honor of representing your Town in the House of Assembly. I can only say that I have been a resident in Victoria nearly four years, and during that time I have had the pleasure of being in daily communication with yourselves as well as with my fellow-townsmen in Victoria. My character for ability to serve you in the House of Assembly I shall leave entirely in your own hands and to your own judgment, and upon consideration, if you think me worthy of the trust, I can only say that I shall to the utmost of my power support all measures that will benefit your Town and the Colony at large.
Gentlemen, I beg to remain your most obedient servant.
THOS. HARRIS.

Notice to the Public.

SAINSEVAIN'S WINE BITTERS; OR
California Vermouth—These Bitters are obtain-
ing a wide-spread celebrity in all parts of the State.
It is sufficient evidence of their great merit to observe
the large quantities shipped by our principal Wine
Merchants to every part of the country.

Sainsevain, however, like all other manufacturers
of new and valuable articles, has to contend with
unscrupulous parties, who are introducing a spurious
mixture purporting to be his Wine Bitters, which
noxious compounds are put up in the same style of
bottles, labels, etc., so as to pass for the Sainsevain
brand. We call attention to this fact so that our
citizens may be upon their guard, and that when
they ask for Sainsevain's Bitters, see that they get
them. As pure Wine is destined to drive from us
all alcoholic concoctions, so these Bitters will soon
take the place of the adulterated preparations which
now flood our market. Those desiring a pure and
agreeable tonic should try Sainsevain's Wine Bitters
of California Verouth.

We have appointed W. H. OLIVER, of Victoria,
V. I., to be our sole Agent for the British Posses-
sions.

COUGHS, ASTHMA, AND INCIPENT
Consumption are effectually cured by
Keating's Cough Lozenges.

For half a century this well-known remedy for
Pulmonary Disorders has successfully stood the test
of public approval and their usefulness has been ex-
tended to every climate and country of the civilized
world. They may be found alike on the gold-fields
of Australia, the back woods of America, in every
important place in the East or West Indies, and the
palace of Peking. During this long period they have
withstood the pretensions of numerous inferior ri-
vals, and are now the acknowledged antidote for
Coughs, Colds, Asthma, etc.

IMPORTANT TESTIMONIAL.
MELBOURNE, PORT PHILIP.
DEAR SIR—I duly received per Mail the case
of Lozenges, and have much pleasure in saying that
they have met with a ready sale; therefore, send me
now the value of ten pounds; that is, double the
last sent, packed in two cases with Tins, etc., as be-
fore.

The Lozenges require only to be tried, and I am
sure the sale will be immense. I am not an advocate
for Proprietary Medicines in the general way, but
assure you that the Lozenges have done so much
good in almost every case in which we have recom-
mended them, that I believe them better adapted to
this climate than any other I have ever seen used.

Believe me, dear sir, yours faithfully,
DANIEL R. LONG.

Mr. Thomas Keating.
Prepared and sold in Boxes, Tins, and Bottles of
various sizes, by THOMAS KEATING, Chemist etc.,
73 St. Paul's Churchyard, London. Sold Retail by
all Druggists and Patent Medicine Vendors in the world.

To prevent spurious imitations, please to observe
that the words "KEATING'S COUGH LOZENGES"
are engraved on the Government Stamp of each Box,
without which none are genuine.

Sold at Victoria, Vancouver Island, by Mr
W. M. Searby, Pharmaceutical Chemist.

THE BRITISH COLONIST

TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

Wednesday Morning, March 26, 1862.

EDUCATION.

We observe there is set down in the estimates for the current year the sum of £1000 for educational purposes. Last year the original estimate was £550 of which £100 was to defray repairs on school-houses. As it appears by the votes on the estimates, the school fund was increased to £610. The actual expenditure for education however, was only £450. That sum, we presume, was paid to the three teachers who preside over the public schools, Nanaimo, Victoria, and Victoria District. The promised increase then in the School fund this year over the actual expenditure is £550. If however a similar course is to be pursued to what obtained last year where we find £610 were voted, but only £450 expended, the promising increase in our School funds may be more fanciful than real. To render any attempt at juggling with the School fund abortive this year, we call for an act to regulate Schools throughout the colony, under which the Superintendent of Education and School Commissioners shall have power to draw and disburse the School fund. If such be not done, the interests of Education may be shuffled over for another year; and Government get the praise of having provided liberally for education without having done so. If the Superintendent of Education as the head of one department be made responsible by law, we should no doubt see a detailed report at every annual session of the legislature. As it is, we have had no report on Education since last session; not only as regards the funds, but also in reference to other details of the department of Education. Our School system—if such it can be called—is consequently radically defective; and will be so as long as we have no statute both direct and mandatory pointing out the functions of the Superintendent Board of Education, and Local Commissioners. We have not the smallest doubt that the gentleman who now fills the office of Superintendent of Education—and who, aside from the teachers is the only educational officer in the colony—has discharged his duty with ability and zeal. Yet in our opinion, that is insufficient to meet the interests of education both present and future. A Superintendent cannot do everything no matter how well-disposed. He cannot overcome defects which have their origin in the absence of a specific and well-digested law, and in the broken promises of Government itself as the non-disbursement of the vote of last session indicates.

The increase in the school appropriation indicates a proposed increase in public schools; consequently in teachers. There being no one but the Superintendent to examine the teachers, no one to sanction the appointment but the Government, it may be that with every wish to serve the public properly, the public may be dissatisfied. Hence, we want a Board for the examination of teachers, qualified to issue teachers' diplomas. To that Board competent gentlemen should be appointed from the whole community who would be more likely to give satisfaction than under the present system of doing things. The Board might be an Educational Council of which the Superintendent would be the Executive, whilst the local commissioners or overseers, elected in each school district, could select the school site, attend to the erection or repairs, &c, of school houses. We merely, in this, indicate a rough outline of educational machinery. It may be modified or improved in any way so long as the main ends are attained: efficiency in our schools, with entire satisfaction to the community. But aside and beyond educational machinery, we want an endowment. The only school fund we have now is taken from the general revenue. So far so good; yet we have the opportunity to get something more. There are our waste lands. From them a rich endowment may be provided if steps be taken in time.

Defeated on the Estimates

Monday very unexpectedly His Excellency's popular minister, the Attorney General moved to go into Committee of Supply. Mr. Burnaby seconded the motion. But it was "no go." Mr. Ring opposed the motion, in which Trimble, Franklin and Tolmie concurred. So the once puissant leader whose followers would have shown every alacrity in obeying his will, was left in a minority—was defeated—and defeated on one of the most important motions that can be made in the Assembly. How are the mighty fallen! At the very outset what is tantamount to a vote of no confidence in the Government, is carried. If a constitutional course were pursued, Mr. Cary would resign his post, and the port-folio of premier be handed over to a leader who possesses the confidence of the House. But it is extremely doubtful whether such will be done. For on the one hand the Attorney General is willing to be snubbed and defeated by the Assembly over and over again, provided he is not turned out of his nominal position. On the other hand Gov. Douglas has shown such interest in his minister and such disregard for public opinion, that he will make

no efforts to turn the defeat to a proper account. And in the next place it is somewhat improbable whether sufficient generalship will be shown by prominent members of the Assembly, to force the Premier to resign. If the latter be not done, the defeat though not worthless but possibly productive of much good, will not be turned to such a profitable account as it deserves to be. The consequence in the latter case will be that legislators, in comparison with legislators in constitutional colonies will prove a perfect burlesque.

The Civil War.

The news from the States appears favorable to the Federals; whilst the Confederate cause looks rather gloomy. The success of Gen. Curtis over Price's forces in Arkansas is signal, but not decisive; Price may yet regain his lost position, though the chances are decidedly against him. The naval engagement at Norfolk, like that at New Orleans, is entirely in favor of the Confederates; but with what ultimate advantages we cannot say. The greatest change in the position of the belligerent armies is the evacuation of Manassas by the Confederates and the occupation of that well fortified position by McClellan. We regard it as good generalship on the part of Beauregard and Davis to retreat South; and not so very favorable to McClellan for allowing them to depart. But in all probability the Confederates gauged the exact time when the Federals intended to advance, and so out-generated them. McClellan would not advance till he was ready; neither would Beauregard leave till then. By moving South the war may be prolonged—a decisive battle postponed, and thus the winter and spring campaign may expire in the hot and fever-begging weather of June or July. If the Confederates can seduce the Northern army into the extreme South, disease on the Northern constitution under a Southern sun may do more for their cause than a pitched battle. In the retreat from Manassas we perceive nothing very disastrous to the South, though it is unquestionably encouraging to the North. Where the Confederates will be rallied and a stand made does not appear from our telegrams. Yet wherever the stand be made there the Federals will have to follow, and it is not at all improbable that a siege as long as that of Manassas may yet be recorded. Yet the forces of the Federals are in such good spirits from recent successes, moving in such great force, that nothing but the unanimous and bitter hostility of the Southern people, supported by skilful generals aided by good luck, is likely to pass the Confederates through the present campaign without being virtually subjugated.

Quarantine.

We call the attention of the authorities to the fact that small-pox has been introduced into this country from San Francisco. The cases may be few. But few as they are, they are dangerous; and as the harboring of such a disease is to injure this place, stop people from coming here, and endanger the lives of our citizens, we hope prompt measures will be taken to prevent it from spreading. The most stringent regulations ought to be enforced, and enforced without a moment's delay. If a case occurs the parties ought to be placed beyond the reach of communicating the infection to others. Imagine for a moment what a fearful calamity it would be, were the horde of Indians on the outskirts of the town to take the disease. Their filthy habits would only perpetuate the evil; keep it alive in the community, sacrificing the lives of all classes. We have no wish to be an alarmist; but we believe there is danger, and great danger if the small-pox be allowed to spread through the neglect of the authorities. So much for the few cases noted already. But in reference to preventing its introduction from abroad, all vessels—steamers included—from San Francisco ought to be forced to render a clean bill of health before landing their passengers. If such be neglected, we fear that a serious evil will be entailed on the country.

NEW ADVERTISEMENTS.

THE BRITISH COLONIST
Wednesday Morning, March 26, 1862.

A STUNNER.—No Billingsgate fishwoman who had failed to find a market for her stinking fish, ever abused the persons who declined to become customers for her decaying wares with more vehemence than did the (so-called) "Reporter Press" last evening, in attempting to be jolly under adverse circumstances, pitch into the Lokalitums of this paper. The poor "cove" really meant the article as a crusher—a finisher. It was a regular stunner. He hits the mark exactly when he says we "dare not refute his charge." We own we "dare not." Were the charge brought by a respectable person whose statement a single decent man in town would believe, we might trouble ourselves to refer him to several gentlemen who stood near and heard the conversation alluded to; but when the charge—and its a heavy drag upon charge, sure enough—emanate from such a source as the local column of the Press, we remember the old adage about touching pitch and being defiled, and acknowledge that we "dare not" refute it. The boasted "inexperience" of our neighbor, which he offers as an excuse for his habitual want of enterprise, is a misnomer. Instead of "inexperience," if the old title of "laziness" were applied it would be only giving his slow coach propensities the right name, and probably lead people to place much more faith in the emanations from his revolving pate than they have ever before attached to them. The promise of a trouncing to which we are treated in the concluding paragraph of our contemporary's article, is all very well in theory, but he'll find it awful hard to carry into practice, although we shall afford him many opportunities for the exercise of his muscle during the coming season. We repeat, if any respectable person wishes information as to the "trick" played on our contemporary, he can have it; but no cultus individual such as the Press man has proven himself to be will ever have his curiosity satisfied on that score by us.

GOING TO GO AT THE GOATS.—Acting Superintendent Smith, with his force of Policemen is about to descend on the carcasses of those greatest of town nuisances, the goats, and smite them as the children of Israel smote the Philistines. The goats have destroyed the beauty of nearly every garden in town, nibbled the bark from fruit trees, and made themselves most disagreeable to citizens generally. As the Hog and Goat Bill legalizes the shooting of all such animals found running at large, Mr. Smith will take care that the provisions of that Act are in future carried out. The question of what is to be done with the carcasses, we presume our friends at the Sough village will settle satisfactorily by eating all that may come under their notice.

STEAMBOAT FOR THE UPPER FRASER.—All the preliminaries for building a large stern-wheel steamer for Capt. Thos. Wright, to run on the Fraser from Fort Alexandria upwards, having been completed, Capt. Doane, late of the steamer Union, will leave on the Otter, on Friday, for Fort Alexandria direct, with a gang of workmen and the necessary tools for the purpose of constructing the hull. The engines and boilers will be sent over the Harrison Lillooet route and the Brigade Trail. It is intended that this steamer shall connect with the terminus of the new trail shortly to be commenced by G. B. Wright & Co.

BURNETT.—Who was shot by ex-policeman Carey, four weeks since, while in the latter's house on Kane street, was brought before Mr. Pemberton yesterday for examination. The prisoner was still suffering from the effects of the wound and leaned on a crutch for support. After a patient hearing of the case the magistrate bound Burnett over in his own recognizances, in the sum of £20, to be of good behavior for a period of six months, and granted him a discharge.

SMALL POX.—The San Francisco Bulletin of the 12th says: "There are 26 patients in the small pox hospital of San Francisco. Most of them mild cases. There is a good deal of this loathsome disease in the city. Let no one neglect to employ all the precautions vouchsafed by vaccination."

STIRRING THEMSELVES.—The enterprising Lytton and Yaleites seem determined to post emigrants as to the route leading via their towns to Cariboo, and have accordingly had published a number of large posters and circulars setting forth the advantaged possessed by their road over all others, and containing a table of distantes (said to be very correct) and a list of the refreshment stations along the route.

A BALL.—Next month a ball will be given at the Lyceum. One-half of the proceeds will be given by Mr. G. Sandrie to the Royal Hospital.

VARIOLOID.—Two new cases of varioloid were reported yesterday. One of the patients arrived from San Francisco on the Oregon, and the other came two weeks ago.

NIGHT PROWLER.—A man caught prowling about the streets on Monday night was arrested as a suspicious character and ordered to pay the costs of arrest.

LADY OVER.—Two poems from the pens of interesting Caribboites are laid over until our next.

NO QUORUM.—The House of Assembly, out of respect to steamer day, did not meet yesterday but will assemble to-day at 3 o'clock, p. m. The members present yesterday were: The Speaker, and Messrs. Franklin, Ring and McDonald.

SOUTH SAANICH.—We hear a report that several fine bullocks have been shot by Indians in this District, and that they are feeding on the carcasses. The Police will proceed thither and investigate.

ADDRESSES.—An address of condolence to Her Majesty has been passed by the Legislative Council. Yesterday the address of the Lower House, in response to the Governor's Speech, was presented to His Excellency.

THE "OREGON".—Went to sea at 4 o'clock yesterday afternoon with 40 passengers aboard. She will touch at Crescent City on her passage down.

THE "OTTER".—This steamer left yesterday morning for New Westminster with a full freight and a deck-load, and upwards of 100 passengers. She will make another trip on Friday.

FOR PORTLAND.—The bark A. A. Eldridge sailed yesterday for Portland, Oregon.

IN consequence of the arrival of the Oregon, the Supreme Court has been adjourned till to-morrow.

THE steamer Emily Harris is announced to leave for Olympia this morning.

THE Caledonia brought the steamer's freight from Esquimalt.

Wells, Fargo & Co. shipped by the Oregon, \$19,453 in gold dust.

ROBERT KER, Acting Colonial Auditor.

Interesting Letter from British Columbia.

BRITISH COLUMBIA, March 13, 1862. EDITOR BRITISH COLONIST.—Monotonous and sad is the long winter of the present time. The wind yet rushes howling over our mountain sides or surges sorrowfully through our valleys, as if it held a winter commission until doomsday. People are listlessly existing, as if they cared not much of what component raiseries life is made up. Possibly the spring, if it ever comes, may resuscitate hope and action. At present they are conspicuous for their absence.

We have ice in the cañons twenty feet from the surface of the water, and the foot of the traveler now securely rests upon that terror of all tyros in navigation—Emory's Bar. At Union Bar a secure crossing is made on the ice just above where the ill-fated steamboat Yale blew up, while, on even that eddying maelstrom just below Yale, men tread fearlessly, heading not the boiling waters beneath. From Harrison River to the Lone Tree Island the ice is broken up, while from Harrison River to Hope it is as impenetrable as ever.

Yale glories in her theatricals; Hope in a debating society; but both are suffering the pangs incident to a state of siege. Lytton is pretty well off for necessities, and many men have arrived there during the last few weeks intending to work the mines in that locality before Cariboo opens.

Flour has risen to 24 cents a pound—scarce at that—and as for "animal food," pork holds the market sublimely, indifferent to all opinions of its qualities. I know of white men living on potatoes alone, and the Chinamen are actually on the verge of starvation. If the winter continues another month there will not only be intense suffering but sacrifice of life.

I see by the British Columbian that no blame is attachable to our Colonial authorities in the matter of poor Fifer's property. It does, however, seem strange that the house should for so many months be locked up, the drugs and chemicals permitted to spoil, and that too while debts are standing against the property more than sufficient to swallow it up. I can well understand the exonerations of the Registrar from blame, but I would like to ask, "Is the house to be closed for ever, or only until the property is worthless?" I do not write you from Yale, as the British Columbian asserts. My address is ubiquity. Friendship for the deceased doctor prompts me to demand for his case and memory that fairness which is the boast of our loyal colony.

Crime is fortunately rare. The only case I know of is that of an Indian murder near Lytton. The murderer is in custody. Diphtheria, not small pox, was the cause of death among the Indian children at Boston Bar. A most intelligent and ingenious miner on the river has constructed during the leisure of this winter a melodeon. It is put together and finished most creditably. The wood is mostly composed of the debris of old packing cases, while the musical apparatus owes its origin to the remains of an ancient accordion. Did you see it you would certainly class it among the successful efforts of mechanical genius.

COLUMBUS.

LAST LECTURE.—The last lecture of the season before the Victoria Literary Institute was delivered in the Victoria Theatre last evening by Archdeacon Wright—Mr. A. De Cosmos in the Chair. The subject was "Recollections of a Military Chaplain, or Scenes during War." The theatre was crowded, and among the distinguished present, were his Excellency and suite. The scenes so happily illustrated by the Rev. lecturer were chiefly at Constantinople, Scutari, Alma, Balaklava, Inkerman, and Sebastopol during the Crimean war, descriptions of every phase of that remarkable struggle, interspersed with many anecdotes. So interesting was the lecture that the audience continually applauded it. We sincerely regret we cannot do justice to it. The thanks of the audience were given to the Rev. lecturer, and also to Messrs. Sprout, Stewart, and Glover, for their successful management of the Institute, by acclamation, when Mr. Glover was called to the platform and explained the finances of the Institute, showing that there was a balance of \$12 28 on hand after paying all expenses, which would be paid over to serve charity.

OREGON.—Portland papers received by the steamship Oregon are to the 22d inst. A few cases of the varioloid having occurred at Portland, a small pox hospital is suggested by the Oregonian. . . . The papers contain accounts of rich new diggings, but dust appears scarce. . . . The Brother Jonathan, on her last trip to San Francisco, carried away 1800 boxes of apples. . . . Lieut. McDougall, of the California Volunteers, stationed at the Dalles, committed suicide on the 15th by taking poison. . . . Grand Ronde route to Salmon River is denounced in the Times as a humbug. . . . A late editor of the Oregonian is in luck, having secured the richest kind of a claim at Salmon.

Three hundred passengers left the Oregon at Portland.

BIRTH.

A CARD

EVERY PERSON GOING TO THE CARIBOO MINES SHOULD READ.

From Fort Yale to the Depot of the Yale and Lytton Route to Quesnelle River, for the accommodation of the travelling public have been erected at the following named places:	MILES.
From Fort Yale to	
Spuzum	12
thence to Boston Bar	20
Forest House	20
Lytton City	20
Nicomine	19
Cook & Kimball's Ferry	15
McLean's	15
Scott's	3
The Mount	3
Upper crossing of Bonaparte	10
Green Lake	12
Bridge Creek	12
Lake La Harpe	20
Deep Creek	12
Williams' Lake	18
Ten Mile Creek	10
Round Tent	10
Beaver Lake	20
Little Lake	16
Quesnelle City	7

At all the above places good accommodations for both man and beast can be found. The superiority of the Yale and Lytton route to Quesnelle River, in connection with the public houses along the road, is inducement sufficient to direct all travelers who consider time, safety and accommodations of any importance.

The Yale and Lytton Route is the ONLY CHEAP AND SAFE ROUTE TO THE CARIBOO MINES.

ROYAL MAIL

Steam Packet

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS, Yates Street.

THE ATTENTION OF SHIPPERS and passengers is respectfully solicited to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Freight, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail and the Panama Railroad. The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct, and the moderate rate of freight by this route, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe. Under an arrangement with the PACIFIC MAIL, STEAMSHIP CO., specie and Bullion can be conveyed to London and Havre in France, covered by insurance, for delivery to the Agent of the Royal Mail Steam Packet Company at Panama. An arrangement also exists for the transmission by Express and from Aspinwall, of measurement by weight, jewelry and plate. Merchants in the North Pacific will find it to their advantage to instruct their correspondents to ship all their Higher Class Goods, and to Europe from Aspinwall, by the Company's steamers, on favorable terms. Further information on the subject of Freight, Passage Money, and the general arrangement of the Company, will be furnished by the Agent.

ALEX. D. MACDONALD, Agent.

MACDONALD & CO.,

Yates street, Victoria, V. I.

SELL EXCHANGE drawn at sight or on time.

Count & Co., London, Bank of State of New York, New York.

GOLD DUST on gold dust left for assay at Government Assay Office, New Westminster; or for assay for assay or coinage to United States Mint, San Francisco.

Collection made on reasonable terms, and a General Banking Business Transacted.

Victoria, V. I. June 17, 1862.

MISCELLANEOUS.

Special Services at Christ and St. John's Churches.

It is a custom in the Church of England to have special services and discourses during the six weeks before Easter. This plan has been adopted for the last two years and will be repeated the present season. A course of sermons will be delivered at the two Churches as follows:

CHRIST CHURCH. Sunday mornings—Sun. of the day. Afternoons—Types of the old Testament. Evenings—On the Lord's Prayer. Wednesday evenings—On Faith. ST. JOHN'S CHURCH. Sunday mornings—On Temptation. Evenings—The Seven Churches. Friday evenings—Christian Armour.

In Passion Week at Christ Church there will be services every evening, with sermons upon the 53d chapter of Isaiah. On Monday evening, at the Collegiate School room, lectures expository of the sacrament of the Lord's Supper will be given at 7 o'clock. Morning prayer daily at Christ Church at half past 7 o'clock.

Church of England Lenten Services.

For the Week ending Sunday, March 30th.

AT CHRIST CHURCH—Wednesday Evening, at 7 o'clock. Sermon—Christian Faith—Its Aids. Rev. R. Dundas, M. A. AT ST. JOHN'S—Friday Evening, at 7 o'clock. Sermon—Christian Armour—The Shield. Ven. Archdeacon Wright.

AT CHRIST CHURCH—Sunday Morning, at 11. Sermon—Sins of the Day—Fashion. Bishop of Columbia. Afternoon, at 3. Sermon—Old Testament Types of Christ—Aaron. Rev. E. Cridge, B. A. Evening, at 6.30. Sermon—The Lord's Prayer—Fourth Petition. Rev. A. C. Garrett, B. A.

AT ST. JOHN'S—Sunday Morning, at 11. Sermon—Temptations of the Devil. Rev. R. Dundas, M. A. Evening, at 7. Sermon—The Message to the Church of Sardis. "Be Watchful." Rev. C. T. Woods, M. A.

Early Morning Prayer daily at Christ Church, at half-past seven.

STRENGTHEN THE SYSTEM.

The best means of imparting vigor to the broken down frame and shattered constitution, which has been invented or discovered, is proffered to the feeble of both sexes and all ages in DR. HOSTETTER'S STOMACH BITTERS.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific. Sold by druggists and dealers everywhere.

J. D. LOWENBERG,

REAL ESTATE AGENT.

East side of Government st., bet. Yates & Johnson.

WILL PAY PARTICULAR ATTENTION TO selling, purchasing, and leasing property, to negotiating loans, and transacting everything connected with Real Estate business.

Maps of all the different Districts on the Island may be seen at his office. Parties desirous of purchasing Homesteads, or making investments, will find on my Bulletin Board Town Lots on nearly every street; Farming or Gardening Land in every District; some of which afford a rare chance for investment.

Conveyances, leases, &c., drawn up at reasonable rates.

MISCELLANEOUS.

HEALTH FOR A SHILLING!
Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.
These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.
In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.
There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle-aged. They prevent nervousness, hysterics, drooping, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas.
No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest, or even though it has passed the first stage of inflammation. They may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatic person so bad as even not able to lie down in bed, let him use these two preparations for only a week, and the result will be marvellous.

Blood to the Head--Diseases of the Heart.
More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.
It is not generally known, but such is the fact, that children require medicine oftener than their parents. Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system, twice in the morning and four times in the evening. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

- | | | | |
|---|--|--|--|
| Acute
Bilious
Complaints
Blisters on
the Skin
Bleeding
Cuts
Coughs
Constipation
Croup

There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

CURTIS & MOORE and LANGLEY BROS.,
Sole Agents for Vancouver Island.

COUGHS, COLDS, CONSUMPTION,
ASTHMA, BRONCHITIS, &c.

Jayne's Expectorant

HAS BEEN FOR THIRTY YEARS
THE STANDARD REMEDY.

HAVE YOU A COUGH!

Then use JAYNE'S EXPECTORANT. Do not allow your cold to take its own course. Two thirds of the fatal cases of consumption arise from the neglect of the first signs of coughing, or a cough to get well of itself. Do not fall into this error, but avail yourself at once of a remedy which twenty-five years' experience has demonstrated to be certain to procure a speedy cure.

HAVE YOU ASTHMA OR PHTHISIS!

Then use JAYNE'S EXPECTORANT, which will overcome the spasmodic contraction of the wind tubes, and cause them to eject the mucus or matter which clogs them up, and by an easy and free expectoration, remove all difficulty of breathing.

HAVE YOU BRONCHITIS!

Then use JAYNE'S EXPECTORANT. This wide-spread disease, which may be generally described as an inflammation of the bronchial tubes, which lines the wind tubes or air vessels, spreading through every part of the lungs, is often mistaken for consumption. The Expectorant subdues this inflammation, relieves the attending cough, pain, and difficulty of breathing, and, if the case is not of too long standing, will certainly produce a cure.

HAVE YOU CONSUMPTION!

Then use JAYNE'S EXPECTORANT. It cleanses the lungs from all irritating matters, while at the same time it breaks and invigorates them. Of all the remedies which have been offered for this dread disease, none have stood the test of time or maintained so universal a popularity, as this Expectorant. Thousands who have been given up by their physicians as incurable have been restored to perfect health by its use, and their testimony must carry conviction to all who read it.

HAVE YOU PLEURISY!

Then use JAYNE'S EXPECTORANT. By taking two or three large doses in the early stages of the disease, in quick succession, and covering up warmly in bed, this preparation acts as a suppurative or sweating medicine, and subdues the inflammation at the source.

HAVE YOU WHOOPING COUGH!

Then use JAYNE'S EXPECTORANT. There is no remedy which so effectually cures this disease as the Expectorant. What parent can witness the sufferings of her children from this distressing complaint, without doing all in her power for their relief? What mother so fond of her child, and so anxious to see him healthy, will not give it a trial, then, and let it prove its efficacy.

HAVE YOU CROUP!

Then use JAYNE'S EXPECTORANT. Children are subject to no disease more sudden in its attacks, or in the absence of prompt relief, more fatal to life, than Croup. Parents, therefore, should keep at hand a remedy sure and thorough. Such a remedy may be found in the Expectorant, and every careful mother will keep a supply by her.

JAYNE'S EXPECTORANT

Is a standard medicine. For twenty-five years it has been before the public, and during this period its curative powers have been testified to by all classes of people in all quarters of the world. Physicians, druggists, lawyers, merchants and mechanics, have all borne witness to its efficacy, and have furnished us with their testimony, and it may be found at length in our Almanac. To their convincing certificates we would refer the reader.

This Expectorant, and all of Dr. D. JAYNE & SON'S FAMILY MEDICINES, may be had of CURTIS & MOORE and LANGLEY BROS., Victoria, or of whom may be ordered, gratis, by mail, by enclosing a note for a local agent, containing, besides a valuable calendar, a catalogue of Diseases, together with the symptoms by which they may be known, and the proper remedies for their cure.
